EVENTS

On the 10th of March 2025, the **Department of Library and Information Science** organized an enriching Library visit for its students. The visit included significant destination in Madurai: the Kalaighnar Centenary Library. This initiative aimed to provide students with a practical understanding of literary resources and research facilities, enhancing their academic experience beyond the classroom.

The destination was the Kalaighnar Centenary Library, one of the largest libraries in Tamil Nadu. The library is a treasure trove of knowledge, with a vast collection of books spanning various subjects. Students were particularly impressed by the state-of-the-art facilities and the meticulous organization of resources. The visit included a session where students were introduced to the library's digital resources and online databases, which are invaluable for contemporary literary research. The students were given a guided tour of the library, where they learned about the various genres and historical contexts of the books available. They also had the opportunity to interact with the library staff and preservation of literary resources.

The Industrial visit to the Kalaighnar Centenary Library was a valuable experience for the Library Science and other department students. It not only broadened their literary horizons but also provided them with practical knowledge about library sciences and research methodologies. The students returned with a deeper appreciation for literary resources and an enhanced motivation to pursue their academic goals.
